EXPENDITURE EXPLANATION

There is no anticipated direct material effect on governmental expenditures as a result of this measure. Current law (LRS 43:111 D.(1)) states that "a public postsecondary educational institution annually may expend up to one-half of one percent of its total operating budget or one hundred thousand dollars, whichever amount is less, on advertising, provided such advertising is in furtherance of the duties and functions of the institution." The bill merely adds online services and programs to allowable advertising expenditures. However, if current law (LRS 43:111 D.(1)) is interpreted to be independent from the allowable expenditures granted in LRS 43:111 C. (1)-(5) and there is no cap on such expenditures, governmental expenditures may increase by an indeterminable amount. Expenditures reflected above are shown as SGF, but could also be funded from other means of finance.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
